BORN IN THE USA.

OUR MISSION:

Co-founder - Jenny Mann

We started Strung about 2 years ago. Our intention was not only to create a piece of jewelry that connected people to music and their favorite artists, but we also wanted to give back to help the over all music community.

We stumbled upon Strung by accident. At this point we'd been touring non-stop for almost 5 years in our original outfit Blameshift. One day I happened to notice my guitarst's strings laying around the tour bus and began wrapping them around my wrist.

An idea was born.

From the start we knew we wanted to get behind music charites. Giving back to music was something very important. We saw first hand on the road the impact music had on people, especially the youth. The mission of Strung quickly became

HELP SAVE MUSIC

One of the great things that we've done is become partners with some of the biggest music based charities that have already helped raise millions of dollars.

We also started connecting with famous musicians who support the cause.

We collect played strings from these artists and make limited edition jewelry out of them. The artist then sign an authenticity card verifying their strings and a portion of the proceeds goes directly towards music charities.

Get Inspired, Get Strung.

xūxū,
Jenny & Tim

CO-FOUNDER - JENNY MANN
